

ANI Pharmaceuticals Announces the Launch of Methazolamide Tablets USP

November 6, 2014

Baudette, Minnesota (November 6, 2014) – ANI Pharmaceuticals, Inc. ("ANI") (NASDAQ: ANIP) today announced the launch of Methazolamide USP 25mg and 50mg oral tablets, indicated for the treatment of ocular conditions. The US market for Methazolamide totals \$24 million on a trailing 12 month basis, per IMS Health.

"We are pleased to announce the launch of our first product from the portfolio of approved generic products we acquired from Teva in January 2014. Methazolamide has been on the FDA's drug shortage list over several months and we are very pleased that we can help to alleviate this shortage," said Arthur S. Przybyl, President and Chief Executive Officer.

About Methazolamide Tablets USP

Methazolamide is indicated in the treatment of ocular conditions where lowering intraocular pressure is likely to be of therapeutic benefit, such as chronic open-angle glaucoma, secondary glaucoma, and preoperatively in acute angle-closure glaucoma where lowering the intraocular pressure is desired before surgery.

About ANI

Forward-Looking Statements

To the extent any statements made in this release deal with information that is not historical, these are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about price increases, the Company's future operations, products financial position, operating results and prospects, the Company's pipeline or potential markets therefor, and other statements that are not historical in nature, particularly those that utilize terminology such as "anticipates," "will," "expects," "plans," "potential," "future," "believes," "intends," "continue," other words of similar meaning, derivations of such words and the use of future dates.

Uncertainties and risks may cause the Company's actual results to be materially different than those expressed in or implied by such forward-looking statements. Uncertainties and risks include, but are not limited to, the risk that the Company may face with respect to importing raw materials; increased competition; delays or failure in obtaining product approval from the U.S. Food and Drug Administration; general business and economic conditions; market trends; products development; regulatory and other approvals and marketing.

More detailed information on these and additional factors that could affect the Company's actual results are described in the Company's filings with the Securities and Exchange Commission, including its most recent annual report on Form 10-K and quarterly reports on Form 10-Q, as well as its proxy statement. All forward-looking statements in this news release speak only as of the date of this news release and are based on the Company's current beliefs, assumptions, and expectations. The Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.
